Forecast For Wales
Issued by Met Office Exeter
at 1600 on Wednesday 29 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Remaining changeable but very mild over the coming days.

This Evening and Tonight:
This evening will start dry with some clear spells in the north, but further rain will move in from the southwest, giving a wet night across the country. It will remain breezy but mild for the time of year. Minimum temperature 9 deg C (48 deg F).

Thursday:
Thursday will be a cloudy and damp day with the rain heaviest and most persistent in the north and west during the afternoon. Another mild day with brisk winds. Maximum temperature 14 deg C (57 deg F).

Outlook for Friday to Sunday:
Largely dry and very mild on New Year's Eve. New Year's Day will then see some sunshine but also blustery showers, with some further rain on Sunday, though remaining mild.
